Driving the well-being of the industry. ANNUAL REPORT 2010

An estimated **5.7 million** people in South Africa are HIV-positive. Approximately **1 200 people infected with HIV every day**. The once stable complement of **70 000 industry members** is now under threat owing to the impact of poor health and a shortened life span. In response, Trucking Wellness has established 21 Wellness Centres, complemented by 5 Mobile Wellness Centres, across South Africa. To date, Trucking Wellness has educated almost 430 000 individuals with approximately 155 000 receiving treatment of whom 52 000 were specifically treated for STIs. An estimated 6 000 individuals have received voluntary counselling and testing and more than 10 million condoms have been distributed.

"The ills and hardships facing truck drivers are addressed in a professional and encompassing manner."
